Which choice would most effectively introduce the rest of this paragraph?

Individual Question
E. NO CHANGE
F. There seemed to be no explanation for why Mom ran our household the way she did.
G. Our household didn’t run according to a typical schedule.
H. Mom ran our household in a most spectacular manner.

Incorrect Response
The best answer is NOT F. This is a poor introductory sentence because the paragraph does explain why the mother ran the household in an untypical manner: Everything depended on the tides.

Correct Response
The best answer is G. This is a good introductory sentence because the rest of the paragraph explains how the narrator's household "didn't run according to a typical schedule." The paragraph goes on to say that "meals weren't always served in the expected order" and that the mother operated according to the tides, which were not on a typical household schedule.

*About the PreACT test and score scale*

The PreACT is shorter than the full ACT and is based on 5 scales of ACT test content. The PreACT is scored on the same 1-36 scale as the ACT, but PreACT scores are not used in college admissions. The scores are used to help students understand their strengths in different areas and to identify areas for improvement.

Released Math Practice Questions (long-form)

```
Question 1 of 56

DIRECTIONS: Solve each problem, choose the correct answer, and then fill in the corresponding oval on your answer document. Do not linger over problems that take too much time. Solve as many as you can; then return to the others in the time you have left for this test. You are permitted to use a calculator on this test. You may use your calculator for any problems you choose, but some of the problems may best be done without using a calculator.

Note: Unless otherwise stated, all of the following should be assumed.
1. Illustrative figures are NOT necessarily drawn to scale.
2. Geometric figures lie in a plane.
3. The word line indicates a straight line.
4. The word average indicates arithmetic mean.

Student’s Score Range

ACT College Readiness Benchmarks

If the student’s score is at or above the benchmark, he or she will likely be ready for first-year college courses in the corresponding subject area. There is currently no Benchmark for writing.

Student’s Score Range

Test scores are estimates of the student’s educational development. Think of these achievements on this test as being within a range that extends about one standard error of measurement, or about one point for the composite and writing scores, and 2 points for STEM, ELA, and the other test scores, above and below the student’s score.

Problems Matching Scores

Occasionally we are unable to post scores when expected. If yours are not available yet, it may be due to one of these issues:

- Answer documents from your test center arrived late or your test date was rescheduled. (Please allow an additional one to two weeks for answer documents to arrive from locations other than the United States, US territories, and Canada.)

- The "Matching Information" you provided on the answer document (name, date of birth, and Match Number) is not consistent with the Matching Information on your admission ticket. Scores cannot be reported until they can be accurately matched to the correct person. About 8-10 percent of examinees provide inconsistent information.

- You provided incomplete or inaccurate test form information on the answer document, or the answer document has not cleared all other scoring accuracy checks.

- An irregularity is reported at your test center.

- You owe any registration fees.
