Access Program

Cleveland-Cliffs Sons & Daughters Scholarship (formerly AK Steel)

The Cleveland-Cliffs Foundation awards competitive college scholarships to children of company employees through its Sons and Daughters Scholarship Program. This scholarship opportunity is administered by the Middletown, Ohio Community Foundation who independently selects each recipient based on their outstanding academic achievement, leadership, and community involvement. This is one of the many ways we are investing in our future. Information regarding the 2022 scholarship opportunity will be available in Fall 2021.
