Access Program

Brian Stoner Memorial Scholarship

This fund was created in 2011 to memorialize Brian Stoner, a Pickerington, Ohio resident and entrepreneur. Brian's life was full of varying passions, but family and food consistently outranked all of them. Preference for this scholarship may be given to individuals with autism; individuals with other special needs; individuals intending to major in special education and individuals attending culinary school. If no applicants meet those qualifications, scholarships may be awarded to any applicant. Application available in December.
