Adrian Ramos Memorial Scholarship

The family of Adrian Ramos, Sr. is honored to make gifts in his name that support students attending trade programs. Adrian loved all thing automotives, and he loved helping others repair their own. He didn't graduate high school, but it was his dream to complete his GED, and to one day own his own car lot and repair shop. In honor of his love for this trade, we have chosen to support students who are attending any trade program with a priority for the automotive industry. The Adrian Ramos Memorial Scholarship seeks to award a Muskingum County high school senior or graduate who is seeking an education in the trades (construction, motor/power sector, mechanics, technology, etc.)
